

Digital and IT

What is Artificial Intelligence?

We've all heard of Artificial Intelligence, it's in the news, in films, and has even made its way into education.

When does this start and end?

We have 2 different start dates for this course:

- 16 December 2024 - 17 December 2024
- 27 February 2025 - 28 February 2025

What are the entry requirements?

You will be required to have basic digital skills to complete this course. For students where there is no evidence of this, you may be asked to complete a short assessment, this will help us make sure you are on the right course.

We recommend that those without basic digital skills complete the Learning to Learn Digitally course first.

Course description

We've all heard of Artificial Intelligence, it's in the news, in films, and has even made its way into education. But what actually is AI? What can it do and is it something we should be concerned about? On this course, you'll learn about ChatGPT, using it for yourself to find out more about its strengths and limitations.

It is recommended people create a ChatGPT account before the course starts.
