

Digital and IT

Intro to Computer Programming and Coding

Have you ever had an idea for an app or a website but not known where to start?

What are the entry requirements?

You will be required to have basic digital skills to complete this course. For students where there is no evidence of this, you may be asked to complete a short assessment, this will help us make sure you are on the right course.

We recommend that those without basic digital skills complete the Learning to Learn Digitally course first.

Need more information?

You can find out more about Northern College and the courses on offer by calling us on 01226 776000 or emailing us courses@northern.ac.uk

Course description

On this course, you'll use a range of tools to create a variety of software applications. Using an online app creator, you'll create a basic application for a smartphone, before moving on to write some actual code to create a small computer program.
