

Digital and IT

More Robotics with the Micro:Bit

Building on past learning, this course looks more seriously at robots and what they can do, as well as creating more sophisticated programs for the robot to run.

What are the entry requirements?

No formal requirements; students will be required to have completed the Next Steps in Computers course, or already have digital skills equivalent to those listed in that course's description. They will also be required to have some experience of programming robots, such as having completed the College's Robotics with the Microbit course.

Need more information?

You can find out more about Northern College and the courses on offer by calling us on 01226 776000 or emailing us courses@northern.ac.uk

What can this course lead to?

Combined with other Northern College courses (such as Intro to Programming) this course could lead to the College's Further Robotics course.
