

# Outdoor Learning

## Introduction to Horticulture & Environmental Sustainability

---

This hands-on, three-day course provides an introduction to essential horticultural skills with a focus on sustainable, environmentally friendly gardening practices. You will gain practical experience in soil cultivation, plant care, and sustainable gardening techniques while learning how to reduce your own environmental impact.

This course is perfect for beginners or anyone looking to adopt more sustainable gardening practices. By the end of the course, you will have gained foundational horticultural skills and the confidence to apply eco-friendly techniques in your own gardens.
